Algorithms

Human-Computer Interaction

Proficient in:

Javascript, CSS, HTML5, SQL, Python, Java

Learning:

C++, R, LaTeX

Job Experience

June 2023 - August 2023 - **Camp TV Director**

Camp Tamakwa (Algonquin Park, Canada)

Responsibilities:

For three separate hour-long periods per day, work with 5-10 campers on camera basics and cinematography. These were edited by me that week and shown to the camp. Constant supervision and entertainment with a curriculum that was created and adjusted by myself over the summer.

This was also paired with filming daily camp activities, editing them into 3 separate videos shown at the end of each session. This was at least 6 more hours of work throughout the day, with editing done over the course of several days at the end of each session.

July 2019 – August 2019 – **Summer IT Worker**

Claremont High School District Office

Responsibilities:

Work on setting up and fixing iPads for the school district so every student has an iPad
Shadow the Claremont School District server maintenance worker and help with their job
Test and remove/approve hundreds of potential educational apps for students
